

What Does a Care Coordinator's Day Really Look Like?

In the homecare industry, Care Coordinators play a vital role in ensuring clients receive the support they need and care runs smoothly every day. At Right at Home Chippenham, our amazing Care Coordinators – **Amy Smith and Charlotte Shaw** – are at the heart of this process.

Their day begins with a morning briefing alongside the management team and on-call staff. Together, they review actions, notes, & feedback from the previous night's visits, ensuring any urgent follow-ups with healthcare professionals, families, or others are completed promptly where required.

Next comes a detailed check of the roster – every visit, every care assistant, every client.

Our Care Coordinators work hard to ensure the schedule is fully covered and well-organised. But in homecare, things can change quickly. If a carer calls in sick or a client needs urgent support, they act fast to review the schedule and keep everything running smoothly.

Their responsibilities don't stop there. Amy and Charlotte manage rota issues, conduct spot checks to ensure high levels of support and compliance, supervise Care Assistants, and report key feedback to the management team. And when needed, they step in personally to deliver care, making sure no client is ever left without the support they need.

“It can be stressful at times, but knowing we make a difference every single day is what makes this job so rewarding.” -- Amy Smith

Afternoon Tea in Support of Breast Cancer Now: A Heartwarming Gathering

On a lovely afternoon on 13th August, we welcomed our Clients and Care Assistants to our office for a special Afternoon Tea, hosted by the wonderful Hannah Reseigh-Lincoln in support of Breast Cancer Now.

The event brought everyone together to enjoy tea, sweet treats, and wonderful company while raising vital funds and awareness for those affected by breast cancer. For Clients unable to attend, Afternoon Tea sets were delivered so they could join in from home.

We are grateful for the generosity of all who took part. Together, donations – matched by us – raised over £300, supporting research and vital care. Every cuppa shared brings us closer to a future where breast cancer no longer takes lives too soon.
