Dementia Care that Connects Families

THE DEMENTIA SUPPORT PROGRAMME

Our Dementia Support Programme is a bespoke, tailor-made programme which supports those living with dementia. Our care plans are focused on improving the quality of life of our Clients and their families, in every respect. By working together, we can ensure that you and your loved ones always receive the personalised care and support that you need.

OUR DSP SUCCESS STORY

Here is what one of our Dementia Specialists, Shirley, said about her experience with her Client, H.B, and the programme, so far:

"I really look forward to my afternoon with H.B. I find our outings so refreshing. We enjoy our chats and we often reminisce about her early life, as a girl at school and the memories of her wedding. Previously H.B felt very anxious about leaving the house, but doing it together, she feels reassured and confident."

Our Dementia Specialist, Shirley

DEMENTIA CARE YOU CAN TRUST

Supporting a loved one with dementia can be challenging, but our care packages extend to our Clients families too and we will work with you every step of the way. Our Dementia Support Programme will give you or your loved one a new lease of life - offering a perfect alternative to a care home!

KEY FACTORS TO OUR APPROACH:

ABILITY

We create an environment that empowers our Client and their abilities.

INDIVIDUALITY

We consider our Client's life history, routines and personal preferences.

LIFESTYLE

We work with our Client and their family to set goals and create activities in four areas: Nutrition, socialisation, wellness and awareness- all of which are proven to ease the symptoms of dementia.

QUALITY, PERSON-CENTRED CARE

AT THE HEART OF EVERYTHING WE DO

As your, or your loved one's, daily care needs grow and change, you need care that you can count on and trust - that's where we come in. We ensure that your loved one gets the right care they need to remain living securely and independently at home.

A PROGRAMME THAT MAKES A REAL DIFFERENCE

Our Dementia Support Programme uses a scientifically validated assessment tool to identify and recognise each client's abilities, regardless of the severity of their symptoms. We will identify meaningful activities, designed to support and mentally stimulate each individual.

HOW RIGHT AT HOME SOLENT CAN HELP

People with dementia require specialised care. Unlike traditional support programmes, we believe that ALL of our Clients, regardless of their severity or progression of their dementia, have the ability to interact and connect with their surroundings. Our care plans are focused on using this to improve the quality of life of them and their families. We will support you to:

RELATE

to your loved one in a way that empowers their abilities.

CONNECT

with your loved one using person-centred care and communication techniques.

ENCOURAGE

to participate in activities that support their personal interests and the client's lifestyle.
